About me

I am an easygoing and responsible person, who understands their role and questions things whenever they are not very clear, with a strong desire to enter the cybersecurity field with great ambitions.

Fun fact: I played basketball at federated level for 11 years and I still play at university level.

Skills

- I like solving problems.
- Sociable.
- Willing to learn.
- Java/C/OCaml/Assembly/SQL.
- Not afraid to learn new IT concepts

Education

- **Bachelor's Degree in Electrical and Computer Engineering**
NOVA FCT 2023-2025
After finishing secondary school, I enrolled in the Electrical and Computer Engineering program, however after 1 year and a half (3 semesters) my expectations were not met and I ended up changing courses because I discovered that I liked the programming and computer side more.
- **Bachelor's Degree in Computer Engineering**
NOVA FCT 2025-2027
I entered Computer Engineering already knowing that I want to specialize in cybersecurity, so in addition to university I do self-study on the TryHackMe platform and I intend to achieve the PTI certificate first and then another well-recognized market certificate.
- **Self-Study in Cybersecurity**
I am always trying to learn new concepts in the field, and I also take theoretical and practical classes on the TryHackMe platform online since I purchased the premium plan. I am part of a CTF group with people from my university where we aim to participate in competitions just to challenge ourselves and learn new things, with mentoring from a professor from the computer science department in cybersecurity. 2025

Experience

- **Projects Member (Robotics)**
IN-NOVA NOVA FCT 2026-Now
IN-Nova is a junior consulting company affiliated with the Faculty of Sciences and Technology, and I am part of the projects department as a member, where I contribute to projects that place me in situations where I learn new skills in electronics and microcontroller programming.
- **Vice-president and Coordinator of Partnerships** 2026-Now
NOVA FCT Computer Science Society
As the vice-president of the Society I take part in almost every decision and initiative that our society organizes, I also make the internal structure that orchestrates the workflow as a whole. I am also the one who coordinates the partnerships area and ensure that we can present ourselves in the best way possible.
- **NTT Data Ambassador 25/26** 2025-2026
NTT Data
I am part of the NTT Data ambassadors program, where my role is to be the bridge between the job market and university students in general. During the program I will gain new soft skills, further develop those I already had, and obtain contacts that will benefit me in the future.
